

Business Administration Department

SECTORS WHERE OUR STUDENTS CAN WORK

- Accountancy (accounting firms, companies' financial departments)
- Banking (local branches, headquarters)
- Public services (city or county councils)
- Employment agencies
- Hotels (staff management services, revenue services),
- Industrial and commercial companies (payroll, human resources departments),
- Local or national associations.

We offer an extensive training program covering all fields of Management that will allow graduates to move into successful careers and obtain executive positions within businesses as well as public services. Second-year students are required to specialize in one of these 3 areas: Finance and Accounting - Management of Organizations - Human Resources Management.

Through case studies and group projects, our students learn how to solve problems while developing their creativity. They build strong technical and personal skills that will help them undertake a variety of missions in companies.

WHAT STUDENTS LEARN

Communication, Foreign language 1 : English, Foreign language 2 : Spanish, German or Italian. Economics, Business Law, Marketing, Logistics, Tax legislation, Cost calculation and analysis, Year end accounting work, Computerized tools for management, Recruitment techniques.

The programme also includes a **3-month work placement**.
